

## Meeting Minutes:

1/29/18 at 4:00

Isaiah Johnson, Russell Quao, Derek Brown, Isaac Silvius, Alyssa Drohan, Horatio Hodge, Jarrett Horton

4:00-4:10 – We went over everything that was accomplished last week and decided to change some things about the settings tab.

- Settings Tab: We will be consolidating the dropdown settings and adding a settings page.
- We will add the “change password” option to the edit user settings page.

4:10-4:25 – We discussed what needs to be done this coming week and assigned work to each person.

- Isiah: Will edit user settings (Fix a gear to every page, Create an edit settings page).
- Horatio: Will edit user settings (Fix a gear to every page, Create an edit settings page).
- Isaac: Will implement individual stock page (Fix bugs, File Information, Create JS Promises).
- Russell: Will scrape the AutoComplete for search for stock to associate stock symbol with company name.
- Alyssa: Will scrape the AutoComplete for search for stock to associate stock symbol with company name. Will implement individual stock page (Fix bugs, File Information, Create JavaScript Promises). Will record meeting minutes.
- Derek: Will scrape the AutoComplete for search for stock to associate stock symbol with company name.
- Daniel: Will add dashes for phone numbers, Generalize JavaScript files, Fix Search for Stock Bugs and other small firebase issues.
- Jarrett: Will implement individual stock page (Fix bugs, File Information, Create JavaScript Promises).
