Meeting Minutes: Jarrett Horton

1/22/17 4:00pm

Attending: Isaac, Horatio, Alyssa, Daniel, Russel, Isaiah, Derek, and Jarrett

4:00 – 4:15: We discussed small changes to Rad that needs to be updated. For instance, in the Register use case, scenario 7 we need to fix successful register → add a message to user with the success register. Also talked about deleting the statement within the use that states if the uswer gets email/ pass combo wrong 5 times.

4:15 – 4:25: We mentioned that everyone needs to accept the software team on github as another means of communication and discussed other ways such as whats app to talk to group members instead of email.

4:25 – 4:30: Discussed functionality of current project and how firebase works. Touched on Test case and group involvement in testing the web app.

4:30 – 4:35 We discussed roles for the next two weeks:

1. Start Application (Daniel and Isaac)
2. RAD changes (Russel and Derek)
3. Updates to Test Cases (Aylssa and Horatio)
4. D3 and Search for Stock (Jarrett, Derek, and Russell)
5. Edit User Settings (Isaiah, Horatio, and Aylssa)
